## Drawn Wire

<i>Product</i>	<i>Size</i>	<i>Grades</i>
Brite Basic "Borax Coated"	.029 - .629	1005 -1075
Brite Plating Quality	.091 - .500	1006-1018
Brite Basic Straight and Cut	.062 - .230	1005-1018
Low Carbon Galvanized	.062 - .550	1005-1030
Black Annealed Wire	.062 - .250	ASTM A641 Class 1 Com Class 3
Black Annealed Straight & Cut	.062 - .148	1005 -1018
Brite Annealed Wire	.041 - .135	1005 - 1018
Hard Drawn ASTM 227	.062 - .500	Class 1&2 Borax and Phos Finish
Music Wire ASTM228	.072 - .283	Direct Drawn

## Stainless Steel

Common Stainless Grades:

17-4	304/304L
17-7	316/316L
302	410
302HQ	430
303	

## Wire Mesh

## Rebar

5D LLC wire is produced from wire rod, utilizing a process of chemical descaling, wire drawing, and annealing. 5D LLC offers various finishes and mechanical properties to drawn wire to meet customer requirements for welding, bending, forming, cutting, and packing.

### Wire Rod

- Grades of 1005 to 1085; others available by inquiry
- Customer specific grades with chemical and mechanical property requirements available
- All standard products meet ASTM - A510 and ASTM - A1040
- Applications include: Cold Heading Quality (CHQ), Plating Quality (PQ), High Carbon, Medium Carbon, Industrial Quality (IQ) and Cold Mesh
